# Burpee's BLUE LIST

**1923  
WHOLESALE PRICES  
For Market Growers  
and Florists**

**W. Atlee Burpee Co.**  
Wholesale Department  
Seed Growers Philadelphia

# Burpee's Blue List for 1923

**Burpee's Blue List** is intended for the exclusive use of **Market Growers and Florists** who want **THE BEST SEEDS THAT GROW.**

The prices in this catalog cover cost of bags, boxes, and all packing but **do not include cost of transportation** except on flower seeds. The purchaser pays freight or express charges upon receipt.

**SEEDS BY MAIL.** If seeds are ordered by mail, the cost of postage (Parcel Post rates) should be sent with the order. The Parcel Post rates are regulated according to distance, and the purchaser can readily ascertain the postage by applying to his postmaster. Parcel Post shipments will be insured if the purchaser so requests, in which case the cost of insurance should be sent with the order.

**SEEDS BY FREIGHT AND EXPRESS.** Where it is convenient to use Express service, we recommend it as economical, and you are assured of prompt delivery. Where very large quantities are to be forwarded, or the distance is short and time is not a factor, freight charges are, of course, lower than express. If your station is a "prepaid station," please send an amount sufficient to cover transportation charges with your order.

It is our desire to give our customers the benefit of whatever method of transportation may be most economical for them. Should you be in doubt as to the best method, we would suggest that you leave this to us, and take advantage of our wide shipping experience.

**C. O. D. SHIPMENTS** can be made by **express** (not by freight) when \$2.00 is remitted with the order to cover express charges and guarantee acceptance upon arrival. Small shipments may be sent by Parcel Post C. O. D.

**Perishable goods**, such as Potatoes, Onion Sets, Bulbs and Roots, **cannot be sent C. O. D.**

**OUR TERMS** are **Cash with the Order**, unless you are personally known to us, or in a business where we can learn your financial standing from the commercial agencies. Our prices are fixed **close to cost**, hence we must maintain our rule of "cash with the order" or C. O. D. by Express or Parcel Post.

**YOU RUN NO RISK** in sending **cash with the order**. Our reputation as honest and experienced seedsmen is known the world over. Our financial responsibility can be learned from any bank, trust company, or merchant who subscribes to one of the commercial Agency Reports. You may remit, **at our risk**, by post-office money-order, check, draft, or express order. Use registered letter if you send cash or stamps.

**HOW TO ORDER.** Please be careful to **sign your name** and **give your complete address** on every order and letter sent us. Order by catalog number or variety name—the number alone is sufficient. If you have an inquiry to make or other matters to refer to when sending an order, write the inquiry on a separate sheet of paper from your order and sign your name and address to each. Your orders will be promptly filled and your inquiries will receive careful attention.

## Our Advice is to Order Early

---

---

# Burpee's Annual for 1923

BURPEE'S ANNUAL is the name of our retail catalog. It gives full descriptions of the many varieties of flower and vegetable seed which we supply, and much other information of interest and value. To Market Growers and Florists, we allow a **Discount of 25%** on seeds ordered in retail packets only from BURPEE'S ANNUAL. Ounces and fractions of ounces, quarter pounds and pounds are charged at the prices given in this catalog and are not subject to discount.

*This Catalog cancels all previous quotations.*

## *To Our Friends and Customers:*

The Market Grower and Commercial Florist, more than any one else, realize the value of Quality in Seeds.

Planters all over the world are buying Burpee-Quality Seeds because they are assured of getting the Best Seeds That Grow. Our experience and extensive operations as seed growers have given us a unique opportunity to grow each variety of Burpee Seeds where each variety will mature most nearly to perfection.

Our seed farms in Pennsylvania, New Jersey, and California are famous for the excellent strains of Vegetable and Flower Seeds they produce. The selection of stock seed is done with the utmost care by experts, and all seed sold by the House of Burpee is tested twice at Fordhook.

We are continuously aiming to produce still better seeds. This year's crop has been grown from the best of last year's, and last year's crop was grown from the best of the year before. For nearly half a century the House of Burpee has continued to select and improve the commercial varieties of vegetables and flowers as well as to create the new.

No seed house of less magnitude than Burpee's could produce all varieties of vegetable and flower seeds of such high quality. And Burpee's is the largest mail order seed house in the world.

We hope we may have the pleasure of supplying you with Burpee-Quality Seeds. We are waiting to serve you.

Faithfully,

*Drying Tomato Seed  
at Fordhook*

*Testing Seeds in the  
Greenhouse*

*Trials of Perennial Flower Seeds at Fordhook*

## THE BURPEE GUARANTEE

We guarantee the vitality and purity of our seeds to the full amount of the purchase price.

You can have your money back any time within the year if you are not satisfied with the results from Burpee's Seeds.

Even with Burpee-Quality Seeds success in gardening or farming depends largely upon cultivation, soil, and weather conditions. It is, therefore, agreed that in no case shall W. ATLEE BURPEE Co. be liable for more than the amount actually paid for the seed or bulbs.

We guarantee the safe arrival of your seeds, and we guarantee their quality to the full amount of the purchase price.

This is the guarantee that protects all who purchase seeds from Burpee of Philadelphia.

THE BURPEE STANDARD IN SEEDS is the highest it is possible to attain today, and yet we aim for still further betterment. PROGRESS is our watchword! Planters throughout the world, whether gardening for pleasure or profit, soon learn that "the best is the cheapest." These three sentences convey the principal "reasons why" the Burpee-Business grows steadily year by year. Shall we have the pleasure of serving you this season, or will you wait until importuned by some traveling salesman or storekeeper to buy other seeds claimed to be "just as good as BURPEE'S"? You may get as good, but you cannot get better seeds at any price!

## BURPEE'S ANNUAL—The Leading American Seed Catalog

BURPEE'S ANNUAL for 1923 is an interesting book of 188 pages with more than a hundred of the finest vegetables and flowers illustrated in colors. It tells the plain truth about the Best Seeds That Grow.

BURPEE'S ANNUAL is indispensable as a reference book for market growers and florists. It gives true and detailed descriptions of all the leading vegetables and flowers, with hundreds of illustrations throughout the book. Our list of planting dates and the information regarding the quantities of seed to sow are accurate and have been compiled from notes taken on our FORDHOOK FARMS in Pennsylvania. Keep your copy of BURPEE'S ANNUAL handy.

# Burpee's Sweet Peas

## Early or Winter Flowering Varieties

Burpee's Early or Winter Flowering Sweet Peas are now universally grown by all florists who raise Sweet Peas for the large markets where only the very finest flowers are in demand. All the Burpee varieties are invaluable for greenhouse culture, blooming to perfection when grown indoors. Sown early in September they come into flower by Christmas and may be had all winter long from succession plantings. This very same type of Sweet Peas has proven valuable for our southern states and for outdoor growing where early flowers are an important factor.

For the year of 1923 we have a number of outstanding novelties to add to the already very comprehensive list of Burpee varieties in the Early- or Winter-Flowering type of Spencer Sweet Peas. These novelties are described at length on page 24. In the list below we have given only a brief line of description to each sort, for our space in this catalog is limited. Full descriptions are given on pages 108 and 109 of BURPEE'S ANNUAL for 1923.

Practically every desirable shade and color is represented in the Burpee list of Winter Flowering Spencers. The seed we offer has all been grown on our Floradale Farms.

### WHITE

		Oz.	1/4 lb.	Lb.
3392	<b>Snowstorm Improved (Burpee)</b> Flowers immense in size. The finest early-flowering white. (1/2 oz., 45 cts.) . . . . .	\$0 80	\$2 40	\$8 00

# Burpee Novelties

## Early Flowering Sweet Peas for 1923

### Cheerful

A "cheerful" shade of bright rich pink. Awarded Certificate of Merit at The International Flower Show, New York, March, 1921.

Pkt. (15 seeds) 25 cts.;  $\frac{1}{2}$  oz. \$2.55; oz. \$5.00;  $\frac{1}{4}$  lb. \$15.00; lb. \$50.00, postpaid.

### 3394 Sunburst Improved

(BURPEE, 1923) A tall-growing Sunburst has long been wanted and is now supplied in our new SUNBURST IMPROVED. The color is a pleasing and attractive shade of rich salmon-pink, intensified toward the outer portion of the standard and wings, which are overlaid with a suffusion of amber and salmon. The flowers are borne on long stout stems and the habit of the plant is vigorous, beginning to bloom early and continuing for a long time. A variety of rare beauty. Pkt. 20 cts.;  $\frac{1}{2}$  oz. 55 cts.; oz. \$1.00;  $\frac{1}{4}$  lb. \$3.00; lb. \$10.00, postpaid.

### 3341 Mrs. Warren G. Harding

(BURPEE, 1922) MRS. WARREN G. HARDING is a deep shade of silvery blue—the color that is already so well known as the "Harding Blue." The color is pure throughout with no suspicion of mauve or rose. The flowers are immense in size, with a broad and much frilled standard. The wings are also well waved and a large number of the flowers are duplex or double, which lends weight, size, and beauty to the bunch. It is a vigorous grower, with deep green foliage. Awarded Certificate of Merit at The International Flower Show, March, 1921. Pkt. 25 cts.;  $\frac{1}{2}$  oz. \$1.30; oz. \$2.50;  $\frac{1}{4}$  lb. \$7.50; lb. \$25.00, postpaid.

### 3369 Mrs. Kerr

(BURPEE, 1922) *The Best Early Flowering Salmon.* This magnificent novelty has been hailed by experts as being the finest Sweet Pea in its class. In addition to its unique and dainty color, the plant is of most vigorous habit and extremely free-flowering. The flowers are of immense size and exquisite shape. They are a pleasing shade of rich salmon overlaid with a soft tinge of orange. Awarded Certificate of Merit at The International Flower Show in New York, 1920. Pkt. 25 cts.;  $\frac{1}{2}$  oz. 95 cts.; oz. \$1.80;  $\frac{1}{4}$  lb. \$5.40; lb. \$18.00, postpaid.

### 3391 White Star

(BURPEE, 1922) WHITE STAR is a first-class black-seeded white Sweet Pea, lacking any suspicion of pink or other coloring. The flowers are of enormous size, freely produced in fours, all beautifully waved and well placed on long and strong stems. The plants are robust and bloom freely. Awarded Certificate of Merit at The International Flower Show, New York, March, 1921. Pkt. 25 cts.;  $\frac{1}{2}$  oz. 95 cts.; oz. \$1.80;  $\frac{1}{4}$  lb. \$5.40; lb. \$18.00, postpaid.

### 3336 Burpee's Orange

#### A Glistening Orange Sweet Pea

Introduced by Burpee in 1923. BURPEE'S ORANGE is in every way distinct from all other so-called orange varieties. There is no trace of pink or orange-pink in either standard or wings. It is a true glowing orange self, practically the shade of a bright ripe orange fruit. The rich glistening color compels attention in any light, but under artificial light it is indeed outstanding.

BURPEE'S ORANGE has been proclaimed by experts and the press alike as being the greatest advance of many years in this type of Sweet Pea. It has been awarded a Certificate of Merit at The International Flower Show, New York, March, 1921. Pkt. (15 seeds) 25 cts.;  $\frac{1}{2}$  oz. \$2.55; oz. \$5.00;  $\frac{1}{4}$  lb. \$15.00; lb. \$50.00, postpaid.

### 3343 Cheerful

(BURPEE, 1923) This fine novelty is an entirely new shade among the Early or Winter Flowering Sweet Peas. It is most appropriately named, the color being a soft, "cheerful" shade of Begonia-pink. Few varieties make such an imposing bunch as this fine novelty. The flowers combine immense size with good form. The standard is broad and well waved. The wings are also much frilled and in size of the right proportion to the magnificent spreading standard.

Pkt. (15 seeds) 25 cts.;  $\frac{1}{2}$  oz. \$2.55; oz. \$5.00;  $\frac{1}{4}$  lb. \$15.00; lb. \$50.00, postpaid.

### W. Atlee Burpee Co., Seed Growers, Philadelphia

# New Burpee Sweet Peas

Summer Flowering Varieties for 1923

## 3497 Burpee's Lilac-Pink

BURPEE'S LILAC-PINK has given us a distinct and entirely new shade in Sweet Peas; in fact, a blending of colors that is difficult to describe. In this exquisite novelty we find a charming combination of salmon, amber, and pale lilac-pink, on cream ground. In the standard the delicate lilac color is heavily suffused with salmon-pink. Wings are slightly deeper in tone, while the underlying creamy primrose ground gives a particularly pleasing and lovely color harmony.

The name LILAC-PINK describes the impression one receives when a few flowers are bunched together. A sturdy, strong grower, with very large flowers produced freely, four on a stem. Outstanding and distinct in every way, it is perfectly true and fixed to type and color. Sure to become very popular. **Pkt. (12 seeds) 25 cts.; 5 pkts. for \$1.00, postpaid.**

## 3465 Fordhook Orange

FORDHOOK ORANGE is a decided advance in its color, and, unlike other orange and salmon varieties, it withstands sunshine much better than all others of similar shades, though, when grown primarily for exhibition purposes, we recommend that a certain amount of shading be given just previous to the show. FORDHOOK ORANGE is a glorious shade of deep rich salmon, heavily suffused with bright orange. It is a wonderful and entirely new shade.

FORDHOOK ORANGE is unsurpassed not only in color, but also eclipses all other orange-colored varieties with its strong and sturdy growth. FORDHOOK ORANGE has been given unstinted praise by all who have seen it in our fields and trial-grounds. It should prove to be one of the "best twelve" varieties now in commerce. We anticipate FORDHOOK ORANGE will meet with a hearty reception—it is of such outstanding merit. **Pkt. (12 seeds) 25 cts.; 5 pkts. for \$1.00, postpaid.**

## 3481 Burpee's Honor Bright

We consider this grand novelty to be the best of all the cream-pink Sweet Peas. It is perfectly true and fixed to type and color, and will be of great value either for exhibition or cutting purposes.

BURPEE'S HONOR BRIGHT has flowers which are really immense in size, and it is a particularly strong grower, though it does not run to coarseness. The flowers, invariably borne in fours, are a rich, glowing, deep rose-pink on cream ground. The standard is softly suffused with salmon, while the wings are a delightful shade of pinkish rose on salmon. There is a distinct blotch of buff-primrose at the base of both standard and wings.

The large blooms are well placed on their long stems, and are most beautifully waved or crimped. **Pkt. (20 seeds) 25 cts.; 5 pkts. for \$1.00, postpaid.**

BURPEE'S  
HONOR BRIGHT

# Standard or Summer Flowering Spencer Sweet Peas

We offer re-selected stocks—grown at Floradale. Our list of varieties is complete and includes all the latest and most improved varieties. Sweet Peas are a Burpee specialty and we are growing yearly many thousand pounds of seed on our Floradale Farms. The crops of some varieties turned out very short last year and we, therefore, advise you to put your order in just as soon as possible to avoid disappointment. We will fill orders as long as our stocks last.

Full descriptions are given in BURPEE'S ANNUAL for 1923, pages 111 to 118.

3601	Novelty Mixture The best of newer varieties.....	30	90	3 00

# Burpee's Flower Seeds

Flower seeds of the finest varieties and highest quality have always been a specialty with the House of Burpee. **Floradale Farms** have come to be known as the California Home of Flowers and, in addition to the many acres devoted there to the production of flower seeds, we grow annually a large number of important varieties at **Fordhook Farms** in Pennsylvania and **Sunnybrook Farm** in New Jersey. Those seeds which we do not grow on our own farms are produced under our direct supervision and every possible safeguard is used to protect the Quality of Burpee's Seeds.

In the list below we have not attempted to give descriptions, for this is primarily a business catalog. **BURPEE'S ANNUAL** for 1923, our retail catalog, is the Leading American Seed Catalog and gives detailed information and complete descriptions. If any further particulars are desired, we shall be glad to answer inquiries promptly and fully.

**Our catalog is our only salesman.** We do not send out traveling men to solicit florists' orders. Look through this catalog at your first opportunity and send your order directly to us by mail. It will be filled promptly and carefully.

We do not offer "Trade Packets" of flower seeds as the name "trade packet" is indefinite. In every case we are offering suitable fractions of an ounce of the more expensive varieties at reasonable prices. If still smaller quantities are desired you may order "retail" packets (for which see **BURPEE'S ANNUAL**) at a discount of 25%.

**All FLOWER SEEDS listed in this catalog will be sent to you postpaid at the prices quoted.**

We solicit your inquiries and your orders. We are ready to serve you and assure you of our heartiest co-operation in making your business a success.

# FLOWERING BULBS AND ROOTS

The Florist, as well as the Landscape Gardener, will find much of interest in the following list. Burpee's Bulbs are selected with the same care and attention to Quality as are Burpee's Seeds. All of the bulbs and roots offered herein are first size (unless otherwise stated), sound and healthy, and sure to bloom if given reasonable care.

We take particular pains in specially packing bulbs and roots to ensure their arrival in good condition and, for this reason, always ship bulbs separately from seeds when both are ordered. **When placing your order, specify when and how you wish your bulbs to be sent. We do not ship in freezing weather unless ordered to do so, and then only at customer's risk.**

Our collection of Dahlias is especially worthy of attention. Our lists of Cannas, Gladioli, and Iris are not extensive but are carefully selected and comprise the best varieties for all purposes; in fact, it has been our aim throughout to offer Quality rather than Quantity. Refer to BURPEE'S ANNUAL for 1923, our retail catalog, for complete descriptions.

If you plant Tulips, Hyacinths, Narcissus, Crocus, or Hardy Perennials, send in your name now to receive a copy of BURPEE'S FALL BULB CATALOG (issued September 1st).

**NOTE:** Three or more bulbs will be supplied at the dozen rates, 25 or more at the 100 rates, and 250 or more at the thousand rates.

## GLADIOLI

### Burpee's New Primulinus Hybrids

This species of Gladiolus has received much attention during recent years and has created a sensation wherever it was exhibited. The blooms are distinct in their pleasing form and arrangement. The flowers are not large but very graceful and artistic.

BURPEE'S FORDHOOK HYBRID GLADIOLI

This distinct new race originated at **Fordhook Farms**. The flowers frequently measure 4 to 5 inches in diameter and range in colors from creamy white through all shades of pink, lavender, salmon and red.

	Per	Per	Doz.
	100	1000	
8368 First Size, Mixed.....	\$4.00	\$37.50	
8369 Second Size, Mixed.....	3.50	34.00	

**Burpee's New Fordhook Hybrid Gladioli**

**8310 FORDHOOK PINK**

Fordhook Pink is an extremely early bloomer of sturdy habit, producing its flowers on stiff erect stems. The color is a pleasing shade of clear pink, slightly softer in the throat, where we find a small creamy white blotch. The flowers have a sparkling and glistening luster. The blooms are well placed and open widely, reflexing very slightly as they age. The flower stems are long and strong. The blooms are closely set on the stem. (\$1.00 each; 12 for \$8.50.)

## Burpee's Ready-Made Collections of Vegetable and Flower Seeds

The collections listed in BURPEE'S ANNUAL FOR 1923 are intended primarily for the amateur, but are occasionally ordered by the commercial grower for his wife or to fill in the odd corner of the garden patch.

To Market Gardeners, Garden Clubs, and Florists, we offer them at a special discount of 15% and, when twelve or more of a single collection are ordered, at a discount of 20%.

These discounts apply also to the special bulb assortments offered in BURPEE'S ANNUAL, when ordered in straight sets.

# Burpee's Dahlias

Dahlias have for many years been a specialty with Burpee. We are growing a very extensive list of varieties on our Fordhook Farms in Pennsylvania. Our trials rank among the most complete in this country. Neither time nor money is spared in order to test even the most expensive new varieties for the purpose of determining their value to our customers. It is really a trip worth-while to Fordhook Farms to see our Dahlia fields in full bloom. We have issued a special 16-page Dahlia Catalog giving complete descriptions of all the many varieties which we can offer. Write today for a free copy of Burpee's Special Dahlia Catalog.

Greatly reduced

photograph

Minnie Burgle

## DECORATIVE

This type produces large double flowers which are full to the very center. All varieties are free-blooming, having broad, loosely arranged floral rays.

Collarette Dahlia—  
Maurice Revoire

## COLLARETTE DAHLIAS

In this type we find an extra row of twisted petals inserted in collar fashion between the center and outer ray petals. The contrast of color makes the collar most prominent and gives the whole flower a most striking appearance. **COLLARETTE DAHLIAS** have become very popular for cutting within recent years.

## PEONY-FLOWERED

This type of Dahlia is very popular on account of its artistic effect. The petals are broad and bold and in many varieties curled and twisted, usually covering the small yellow center.

8076 <b>The Quaker</b> Large white flowers, tinted flesh-pink.....	85	3 00

# BURPEE'S SEEDS

## The Best Seeds that Grow

FOR nearly fifty years Burpee's Seeds have set the standard by which all other seeds have been judged. Year in and year out Burpee's Seeds have been safe and dependable—always of the highest quality it has been possible to produce.

Such a record for reliability can be established and maintained only by constant attention to every detail, expert knowledge, and careful trials and tests. The whole Burpee Business—its organization and its policy—is built upon the one fundamental principle, the **Reliability of Burpee's Seeds**.

By far the greater part of Burpee's Seeds are selected and grown right on the Burpee Farms, in various parts of the United States—a greater proportion than that grown by any other American seedsman. And those not produced on our own Farms are grown by tried and experienced men under our direct supervision.

### Burpee's Fordhook Farms

The largest and most complete trial grounds in America are located near Doylestown, Bucks County, Pennsylvania. It is at Fordhook Farms that we test and prove the quality, the vitality and purity, of every lot of seed sold by the House of Burpee. Each year over 15,000 germination tests are made in the greenhouses at Fordhook, and over 7,000 purity trials in the open trial grounds, in addition to the numerous plantings for stock seed selection. Here also are acres of Tomatoes, Phlox, Poppies, Salvia, Zinnia and many other Vegetable and Flower Seed crops.

### Burpee's Sunnybrook Farm

The warm soils of Gloucester County, New Jersey, are particularly well adapted for the growing of some of the more tender crops. At Sunnybrook Farms we grow seed of Peppers, Egg Plants, Melons, and Cucumbers and the famous Sunnybrook strain of Earliana Tomato, as well as many other Vegetables and choice Flower seeds. And at Sunnybrook Farm we make our purity trials of Melons, Squashes, Pumpkins and other Vine crops.

### Burpee's Floradale Farms

The many acres of this California Home of Flowers are devoted to the growing of selected stocks of the finest varieties of Flower seeds. For its Sweet Peas alone it is famous the world over. Alyssum, Snapdragon, Larkspurs, Calendulas, Marigolds and others, too numerous to mention, grow to perfection in the fertile climate of sunny Santa Barbara County. A visit to Floradale Farms when the Sweet Peas and other Flowers are in bloom is worth a trip across the continent.
